PINE Impact Report 2023-2024

Envisioning a Society that Values
and Celebrates Neurodiversity,
Fostering Inclusion, and Belonging
For All

Who We Are

Imagine a world where every child enters a classroom feeling genuinely supported, valued, and empowered to succeed. At PINE, this possibility drives everything we do.

At the **Program for Inclusion and Neurodiversity Education (PINE)**, we are dedicated to creating environments where every child feels understood, respected, and able to thrive. Over the past year, we've partnered with educators, community organizations, and caregivers to integrate neuro-affirming practices into their work by providing the tools and knowledge needed to create inclusive and accessible spaces.

Our training and resource hub bridges the gap between school and non-school settings, ensuring children experience consistent, meaningful support wherever they go.

From professional development for educators to specialized resources for afterschool programs and caregivers, we are proud to help foster spaces where everyone belongs.

Performance Snapshot

This year, PINE broadened its impact, connecting with more educators, schools, and communities than ever before.

Through professional development delivered across:

11
countries

37
states

69
school
districts

We directly
impacted

217
schools

&

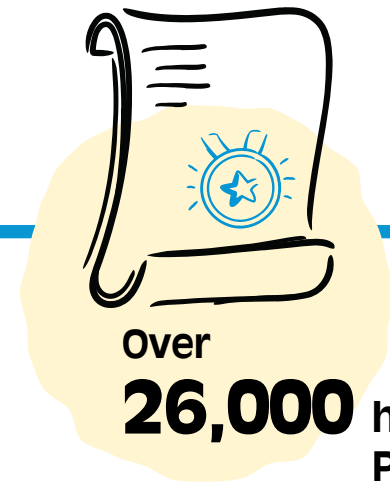

7,389
educators

with **practical
strategies**
for inclusive
teaching.

By reaching
an estimated
48,000
students*,

these efforts are reshaping learning environments where every child experiences the transformative power of belonging.

Over
26,000

hours of
Professional
Development

**Together, we are paving
the way for a future
where inclusion is the
foundation of every
learning experience.**

* According to the U.S. Department of Education, National Center for Student Statistics, Common Core of Data (CDD), "Public Elementary/Secondary School Universe Survey."

PINE Membership

The PINE Membership empowers educators and school communities with essential resources to support neurodiverse learners and foster inclusivity. Through access to online courses, classroom supports, and virtual coaching, members gain practical tools and strategies tailored to their needs.

“I hope you are able to get every school in the country to participate in PINE. It should be mandated training.”

— Principal, East Syracuse Minoa CSD

Full members also benefit from personalized onboarding through the Accelerator training, ensuring they can confidently implement PINE’s neuro-affirming practices. Whether supporting administrators, educators, or paraprofessionals, the PINE Membership bridges gaps in knowledge and fosters collaboration to create more inclusive, accessible learning environments.

PINE Membership (continued)

Our work resonates deeply with educators across roles.

With **99%** of participants reporting they learned actionable strategies and nearly unanimous recommendations of PINE coursework, our impact extends across entire school communities.

99%
of school
staff

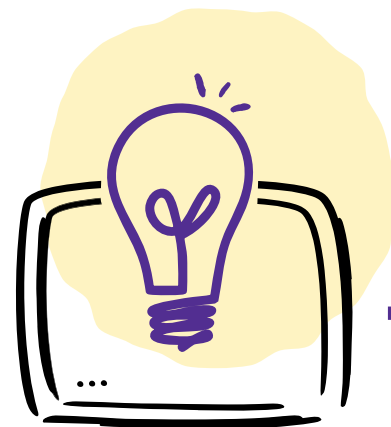

Said that **they learned new tools and strategies** they could use right away

Would recommend PINE coursework

Felt that **what they learned from PINE applies to all of their students...** not only to those identified as neurodivergent

These results affirm that PINE's training goes beyond traditional neurodiversity education, equipping staff with skills that benefit all students — not just those identified as neurodivergent.

The Gap

Our data reveals a stark reality: while most educators have years of experience and regularly support neurodivergent students, **only 19% reported receiving adequate training on neurodiversity before working with PINE**. This underscores a critical gap in professional development, leaving many educators feeling underprepared.

By shifting perceptions and building confidence, PINE is not just filling this gap — we're redefining how schools approach inclusion.

One educator shared:

“PINE's courses opened my eyes to what neurodiversity truly means and how to better support my students.”

94% of participants reported that PINE coursework shifted their perception of neurodivergent students

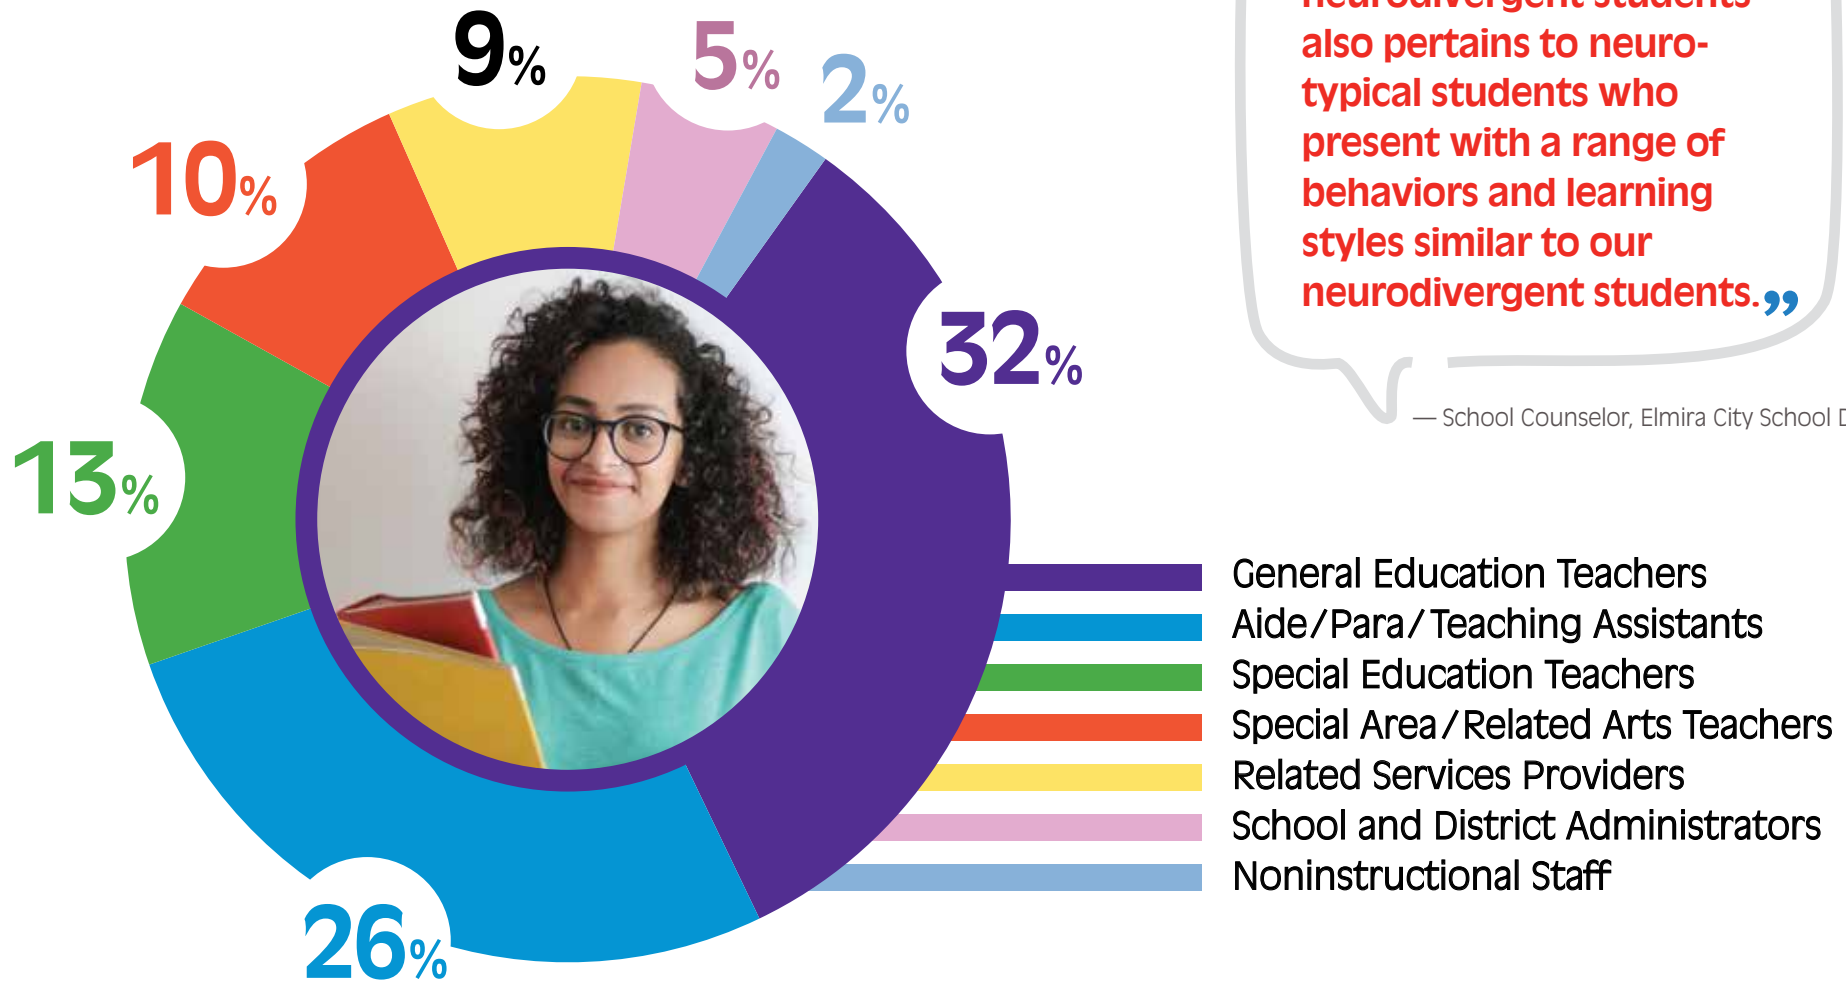

76% of learners have 5+ years of experience working in schools

→ **86%** have 3+ years

96% of school staff reported supporting neurodivergent students in their work

→ While only **28%** of staff feel confident supporting neurodivergent students

Learner Profile

The Trend

The drive to deepen understanding is clear.

“I am so glad our school is starting our journey of inclusivity. I feel so energized by this work!”

— Anonymous, Related Services Provider

After completing just one course,

95%

of staff expressed interest

in pursuing further PINE offerings.

Even more compelling,

70%

took the initiative to continue their learning,

demonstrating the enduring value of our programs.

99%

reported that the coursework introduced new content, concepts, and ideas than they had learned in the past.

PINE Accelerator

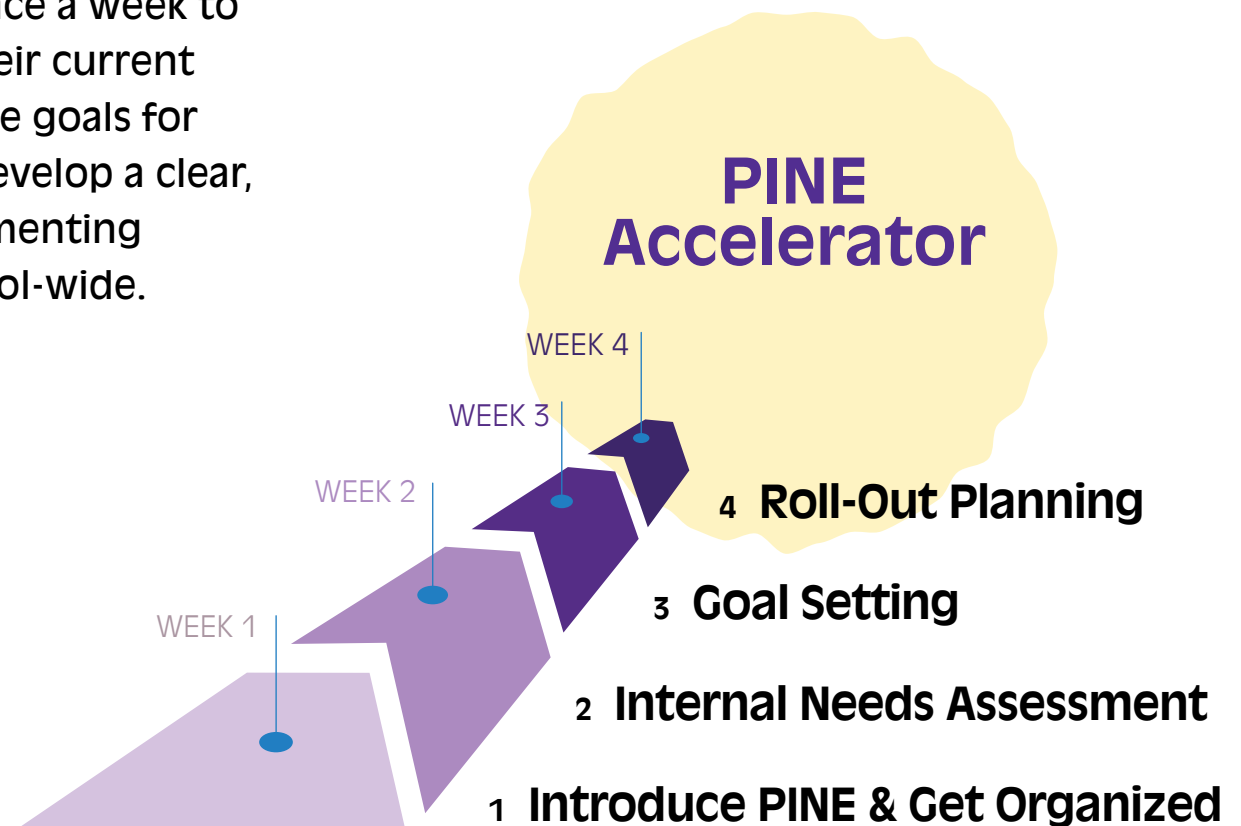

The Accelerator leadership training is a cornerstone of our programming, designed specifically for new PINE schools. Over the course of four weeks, school teams meet once a week to explore PINE's approach, evaluate their current inclusion practices, and set actionable goals for the upcoming year. Together, they develop a clear, strategic plan for successfully implementing PINE's neurodiversity initiatives school-wide.

96%

of participants reported that the training helped them to create a plan for the year ahead, complete with clear, specific, and measurable goals.

“I'm LOVING this!”

— Anonymous, General Education Teacher

PINE Accelerator (continued)

This training equips teams with the guidance they need to create measurable, sustainable plans, ensuring the smooth adoption of the program. Participants particularly valued the interdisciplinary approach, which encouraged collaboration across roles, as well as the live session content that fostered deep learning and goal-setting. By the end of the Accelerator, each team left with a solid foundation and a clear path forward.

One participant shared,

“The Accelerator helped us come together as a team, aligning on goals and setting a strong foundation for the year ahead.”

Top 3 favorite aspects of the training:

Time to work together as a team during the live sessions

Developing school plans and goals

Live session content

98%

of participants said they valued the interdisciplinary team approach

90%

said they were excited to champion PINE at their schools

PINE Summit

Our annual virtual conference, the PINE Summit, was a truly global event, uniting a diverse group of educators, administrators, parents, and self-advocates, to showcase the power of collective action in fostering inclusive spaces. The overwhelmingly positive feedback — **100% would recommend the conference** — underscores the Summit's relevance and impact.

“The Summit was exactly what I needed. It left me inspired and ready to make important changes in the approaches I use.”

— Summit Attendee

Summit Highlights

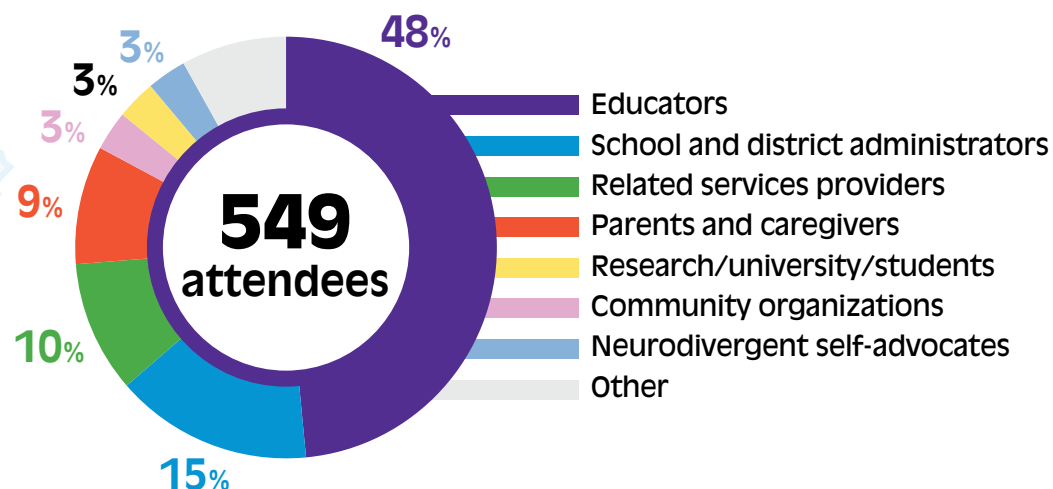

Representing **10 countries**, with participants from diverse regions contributing to the global perspective of the event.

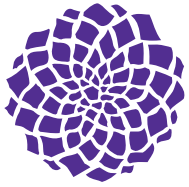

Attendees from **31 U.S. States**, further demonstrating the broad reach and relevance of the Summit across the country.

Engaged **56 School Districts** and **162 Schools**, emphasizing the wide impact the Summit had on educational institutions.

* Alabama, Arkansas, California, Colorado, Connecticut, District of Columbia, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Ohio, Oregon, Pennsylvania, South Carolina, Tennessee, Texas, Vermont, Virginia, Washington, Wisconsin

Thank You!

This year's achievements would not have been possible without the unwavering commitment of our partners and the broader community of champions. Your dedication is helping us move closer to our vision of a society that values and celebrates neurodiversity, fostering inclusion and a sense of belonging for all.

Thank you for being an essential part of this journey!

The Program for Inclusion and Neurodiversity Education (PINE) educates and empowers schools and communities to embrace neurodiversity, creating inclusive, accessible, and supportive spaces for children wherever they go.
